

Example Pandoc Document

Me, Myself and I

10.11.2021

Contents

1 Header 1	2
1.1 Header 2	2
2 Header 3	3

1 Header 1

1.1 Header 2

This is content. Now an image:

Shira

[blog/](#) - Articles about IT, Programming and Linux

[tools/](#) - local JS-based tools like hashing, base64 dec/enc and jwt pretty printing

[>github](#) - projects

[gmod/](#) - Articles to Garry's Mod

[kh2/](#) - Articles to Kingdom Hearts 2

[stash/](#) - ressource for code & commands

[about](#) - contact & information

[v10.1](#)

Figure 1: Screenshot of shira.at displayed at 90% width

The next Heading will be on the next page because i write a \newpage after this sentence.

2 Header 3

You can do all things markdown provides, like *italic* and **bold** and code with 4 spaces

```
echo "Hello World"  
Hello World
```

Now comes a "list of figures" with \listoffigures:

List of Figures
